## MediModules Appoints Wanda Montalvo to Advisory Board

Brooklyn, NY Aug 23, 2006 – MediModules, an innovative health IT company, has appointed Wanda Montalvo, RN, MSN, ANP to its Advisory Board.

Ms. Montalvo is a partner at Montalvo Consulting, LLC. Prior to founding this consulting company, she was the Cluster Director for the Northeast Health Disparities Collaborative (HDC) sponsored by the Department of Health and Human Services' Bureau of Primary Health Care. She has worked extensively with community health centers across the Northeastern states and Puerto Rico for the past six years.

“Wanda’s extensive experience in healthcare quality and chronic care model will help keep the focus of our company on improving healthcare quality and ensuring patient safety in all health care settings”, explains Munish Khaneja, MD, MPH, the Chief Medical Officer of MediModules. “In addition her training and experience as practicing nurse and nurse practitioner helps us broaden our understanding of the clinical workflow.”

Ms. Montalvo received a Bachelor of Science degree in Nursing from Long Island University School of Nursing and returned to Long Island University in 1996 to obtain a Master of Science as an Adult Nurse Practitioner. Ms. Montalvo has received numerous awards throughout her professional career and has been recognized by the Quality Center of the Bureau of Primary Health Care for an Outstanding Achievement Award. Her most recent accomplishment is her nomination as a 2004 Robert Wood Johnson Executive Nurse Fellow and in 2006 Manchester’s Who’s Who of Executives and Professionals.

Ms. Montalvo states: “MediModules is using seamless technology to bridge the communication gap between providers and patients using a patient-centered approach. As a nurse, I feel that the holistic patient-centered care of the patient is essential in improving patient outcomes. MediModules will help organization standardize their systems to meet the needs of medication information exchange.”

### About MediModules, Inc.

MediModules is a health IT company based in New York whose mission is to promote patient safety, improve healthcare efficiency, and ensure regulatory compliance by creating innovative, state-of-the-art software applications for all healthcare settings.
